

Your **AI Adoption** Partner

Intelligence that Acts. **Results that Scale.**

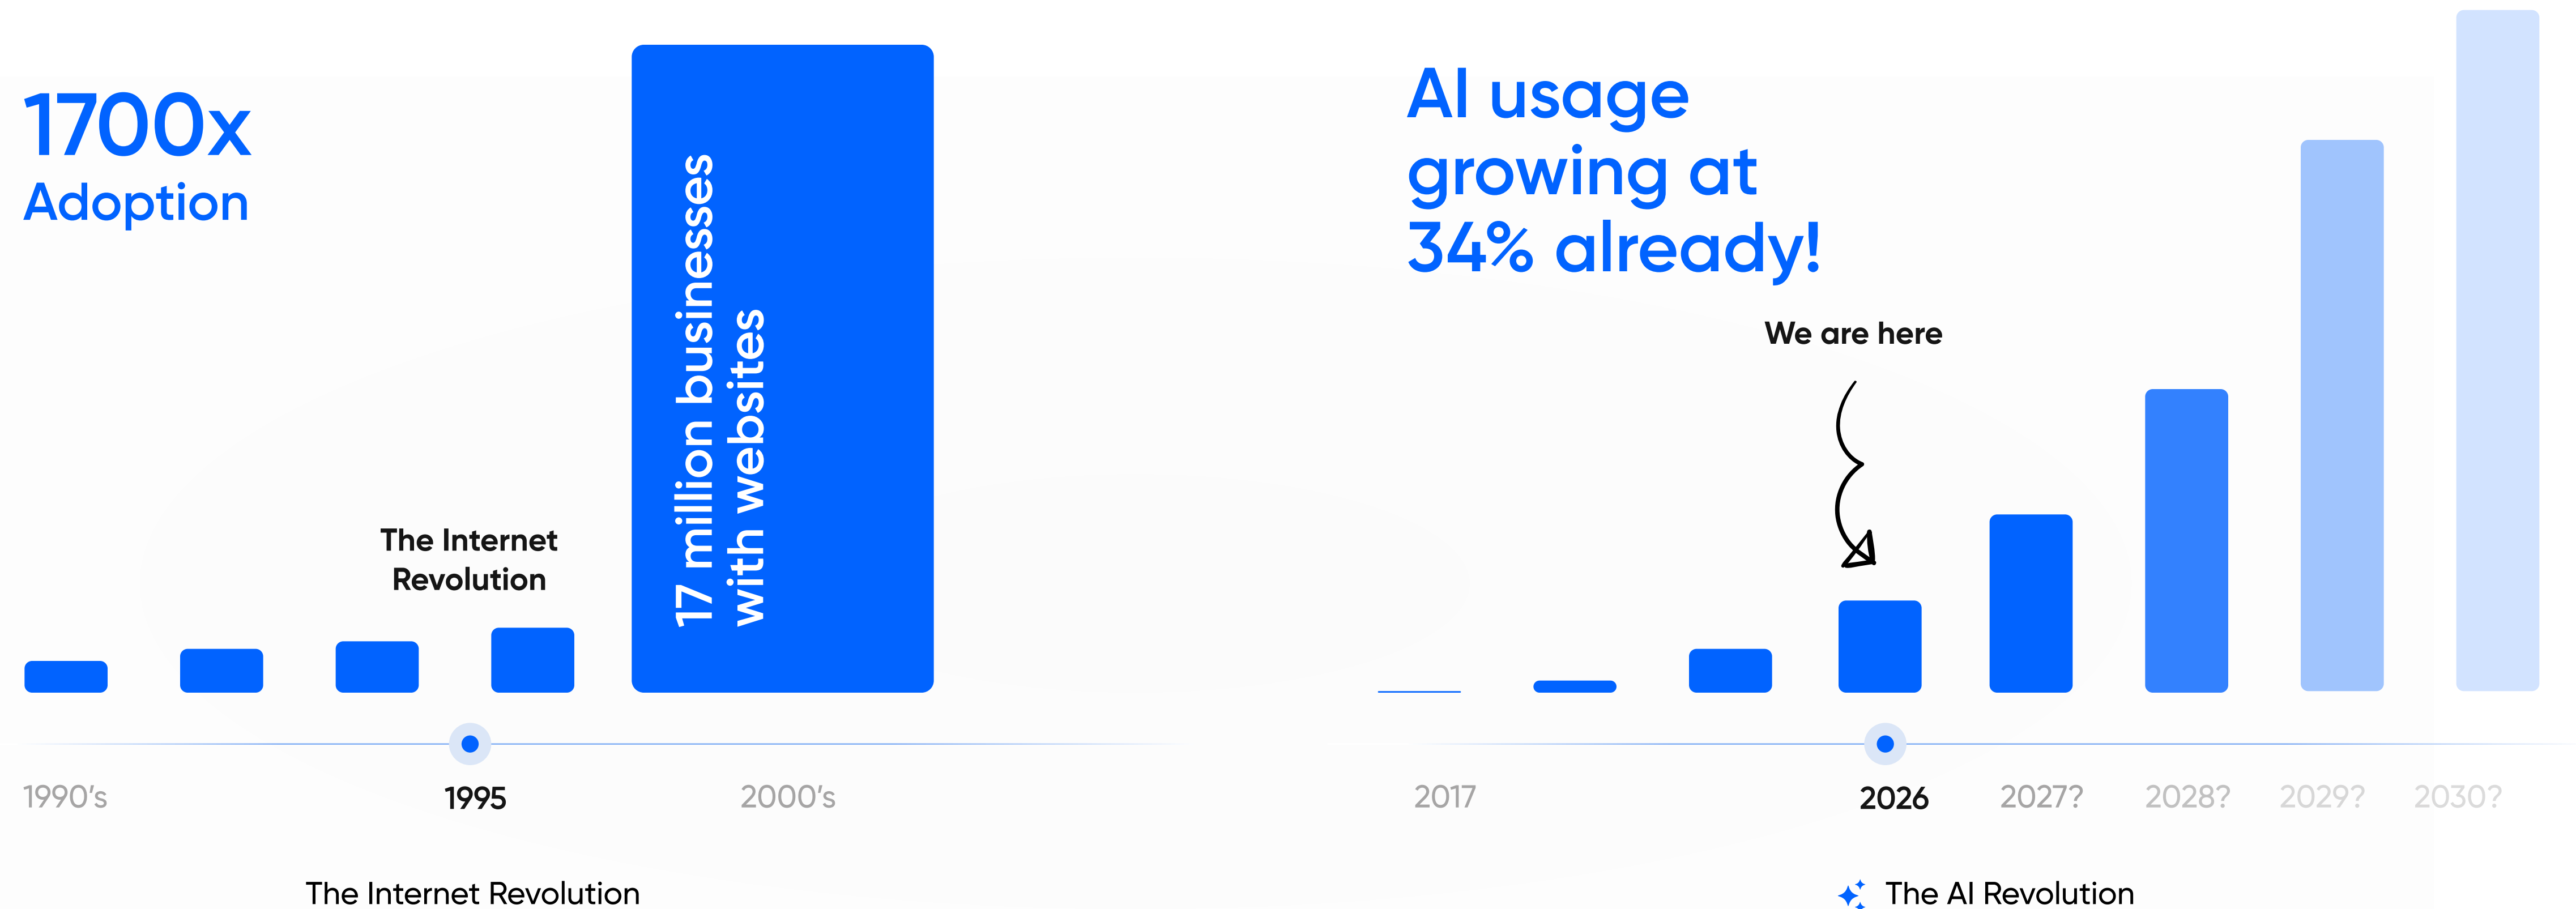

A few decades ago, **the internet** changed everything.

Businesses that embraced it scaled. The ones that didn't, **fell behind**. This wasn't just a tool, it was a tectonic shift in value creation..

AI is that revolution

Just like the internet made our work smarter, AI will make it **intelligent**. Processes will run themselves and adopters will unlock scale like never before.

But adoption still remains a challenge

Between recognizing the shift and actually making it, most companies are losing ground.

No clear AI strategy

Lack of qualified AI talent

Generic solutions, not tailored AI

Unclear ROI, scattered use cases

Teams can't leverage their AI tools

Fear of the unknown

Infrastructure & Integration

Unpredictability

Compliance risks

This is where **Magentic** steps in

Your partner in the shift to **intelligent** work.

Effortless

Automation first

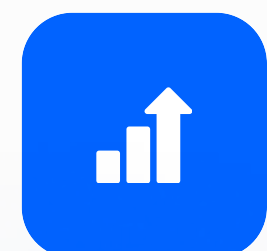

We streamline processes to save time, effort & remove system complexity.

Adaptive

Learns & evolves

We build workflows that adapt to your needs and improve over time.

Scalable

Enterprise-ready

We design intelligent solutions that grow seamlessly with your business, supporting evolving needs, expanding operations, and long term performance at every stage.

We make AI adoption **effortless**, empowering your teams to work smarter, faster, and more creatively than ever before.

We don't just implement tools, we architect intelligent workflows that transform how your business operates.

- ✓ From fragmented processes to unified intelligence, **built to scale with you**

Going by the **numbers**

500+
Automation projects completed across 20+ industries
and 6 continents

50+

Clients actively
building with us

18M+

Customer interactions
managed monthly

95%

Client retention rate
over 12 months

90%+

Clients expand engagement
within 6 months

15+

Experienced team of
engineers & AI architects

Our **Services**

01

Custom AI Automation

End-to-end workflows designed around your unique business logic, not generic templates.

02

AI Enterprise Platform Development

Integrated platforms where AI isn't bolted on, it's the foundation of how you operate.

03

AI Voice Automation

Natural sounding voice agents that handle lead qualification, customer support & recruiting at scale.

Our **Services**

04

AI Content Creation

Brand consistent content engines that scale your output across every channel.

05

AI Corporate Training

Structured programs that help your workforce embrace AI and work alongside intelligent systems.

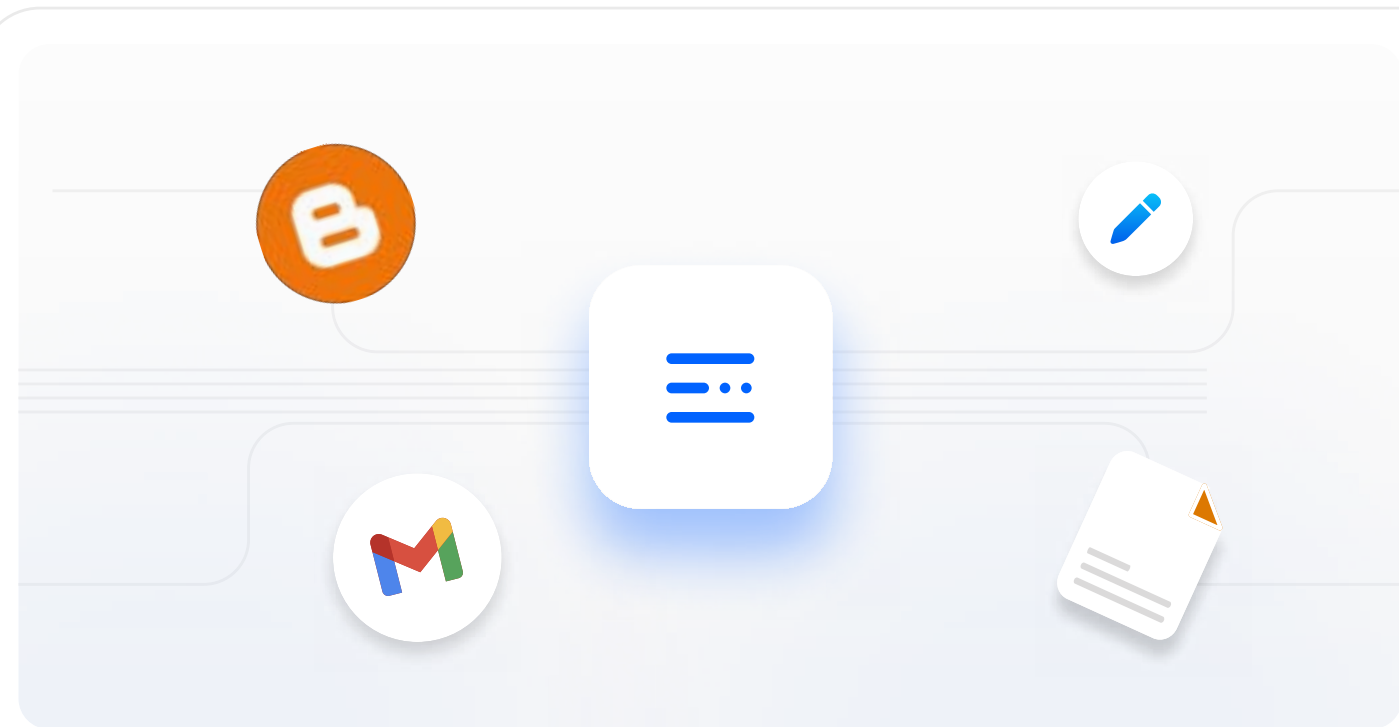

06

AI Staffing Services

We build and vet AI native teams ready to work in augmented environments.

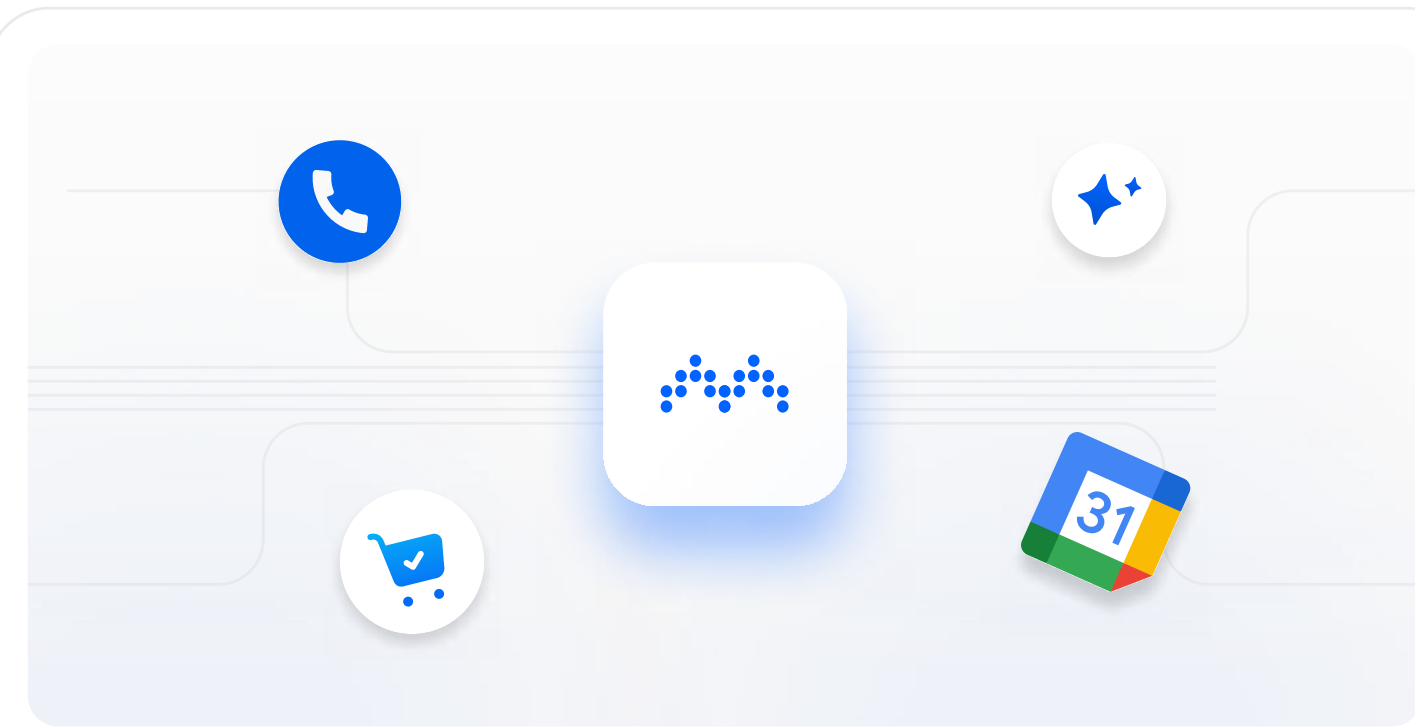

AI agents ready to work.

These aren't tools for your employees. They are your **next employees**.

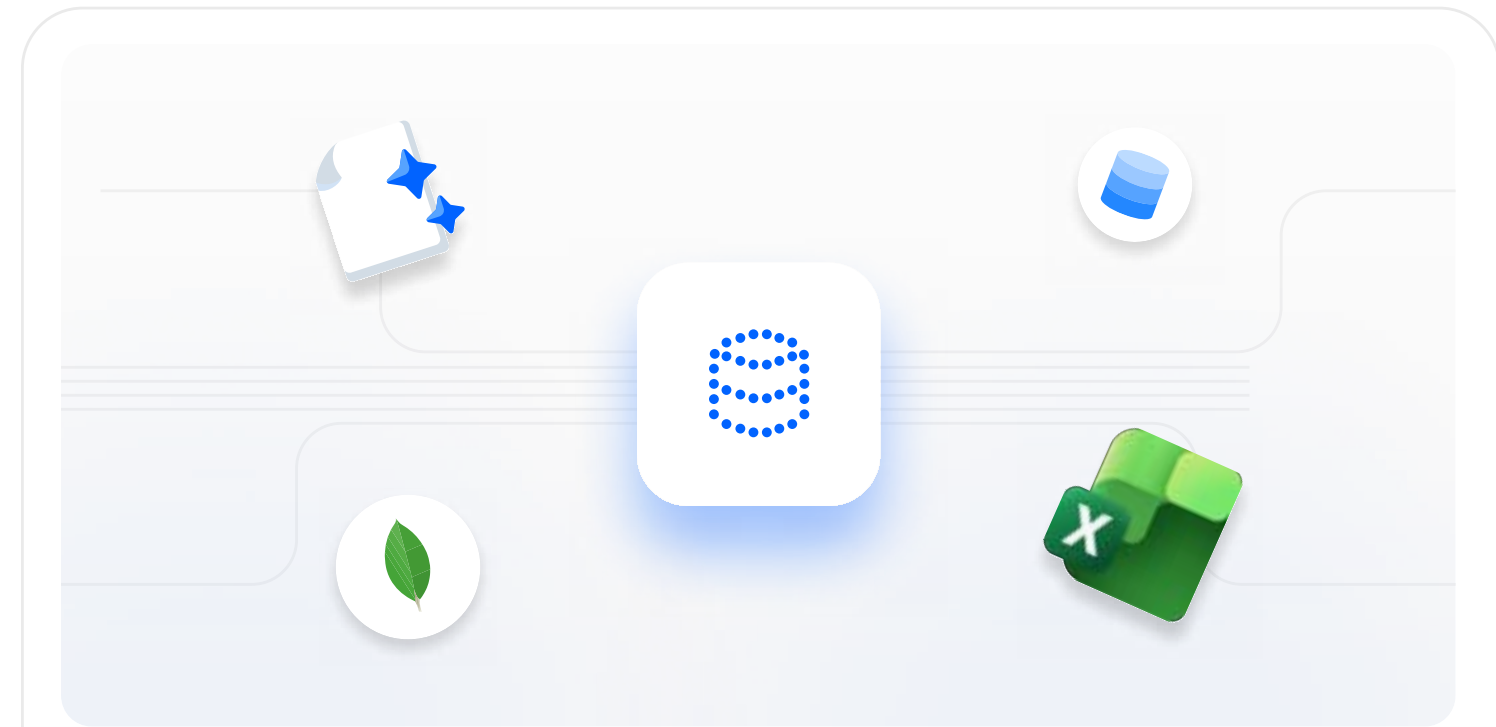

Instawriter AI

Automated content engine. Researches trends, writes content.

Mira AI

Complete business automation from sales to fulfillment to customer service.

Data AI

Your AI data analyst. Query in plain English, get visual insights instantly.

People AI

Automated HR operations. Onboarding, documentation, leave management

Pipeline AI

Your CRM, managed by AI. Auto populates leads, schedules meetings, updates records

What does the shift from smart to **intelligent** look like for you?

FUNCTION	CURRENT OPERATIONS	MAGENTIC INTELLIGENT AUTOMATION
 Customer Support	<ul style="list-style-type: none">⚠ Teams juggle live chat, email, and social media manually.⚠ High wait times and fragmented responses.	<ul style="list-style-type: none">✓ Autonomous resolution AI agents handle >80% of inquiries end-to-end, escalating only high complexity cases to humans instantly.
 Sales & Marketing	<ul style="list-style-type: none">⚠ Reps spend mornings researching leads and crafting manual cold emails⚠ Low conversion rates due to generic outreach.	<ul style="list-style-type: none">✓ Instant intelligence AI researches deep intent in seconds, personalizing multi channel outreach at scale based on live market triggers.

FUNCTION	CURRENT OPERATIONS	MAGENTIC INTELLIGENT AUTOMATION
 <p>HR & Recruitment</p>	<ul style="list-style-type: none">  Reviewing 200 resumes for one role takes your team a full week.  Candidates ghost because follow up is slow. New hires wait weeks for documentation. 	<ul style="list-style-type: none">  Accelerated hiring AI screens applicants fast, auto schedules interviews, and communicates instantly. New hires are day one ready, cutting time to hire by as much as 60% and costs by 45%.
 <p>Finance</p>	<ul style="list-style-type: none">  Invoice processing is a bottleneck. AP team manually matches POs to invoices. Approvals take 5-7 days.  Cash flow forecasts are guesses based on last month's spreadsheet. 	<ul style="list-style-type: none">  Precision accounting AI matches invoices to POs, flags exceptions, and enables same day approvals. Realtime forecasts cut DSO, freeing finance teams to focus on strategy over data entry.
 <p>Operations</p>	<ul style="list-style-type: none">  Your team tracks orders across email, spreadsheets, three systems. Delays aren't visible until customers call.  Reporting takes 2 days to compile and is outdated when finished. 	<ul style="list-style-type: none">  Unified orchestration Orders flow through one intelligent system. Delays are flagged with recommended actions, dashboards update in real time, and teams act on insights not manual reporting.

The Magentic method

01

Audit

We map your workflows to identify high impact automation opportunities.

02

Architect

We design secure, private AI infrastructure tailored to your stack.

03

Activate

We deploy custom AI agents and train your team for full adoption.

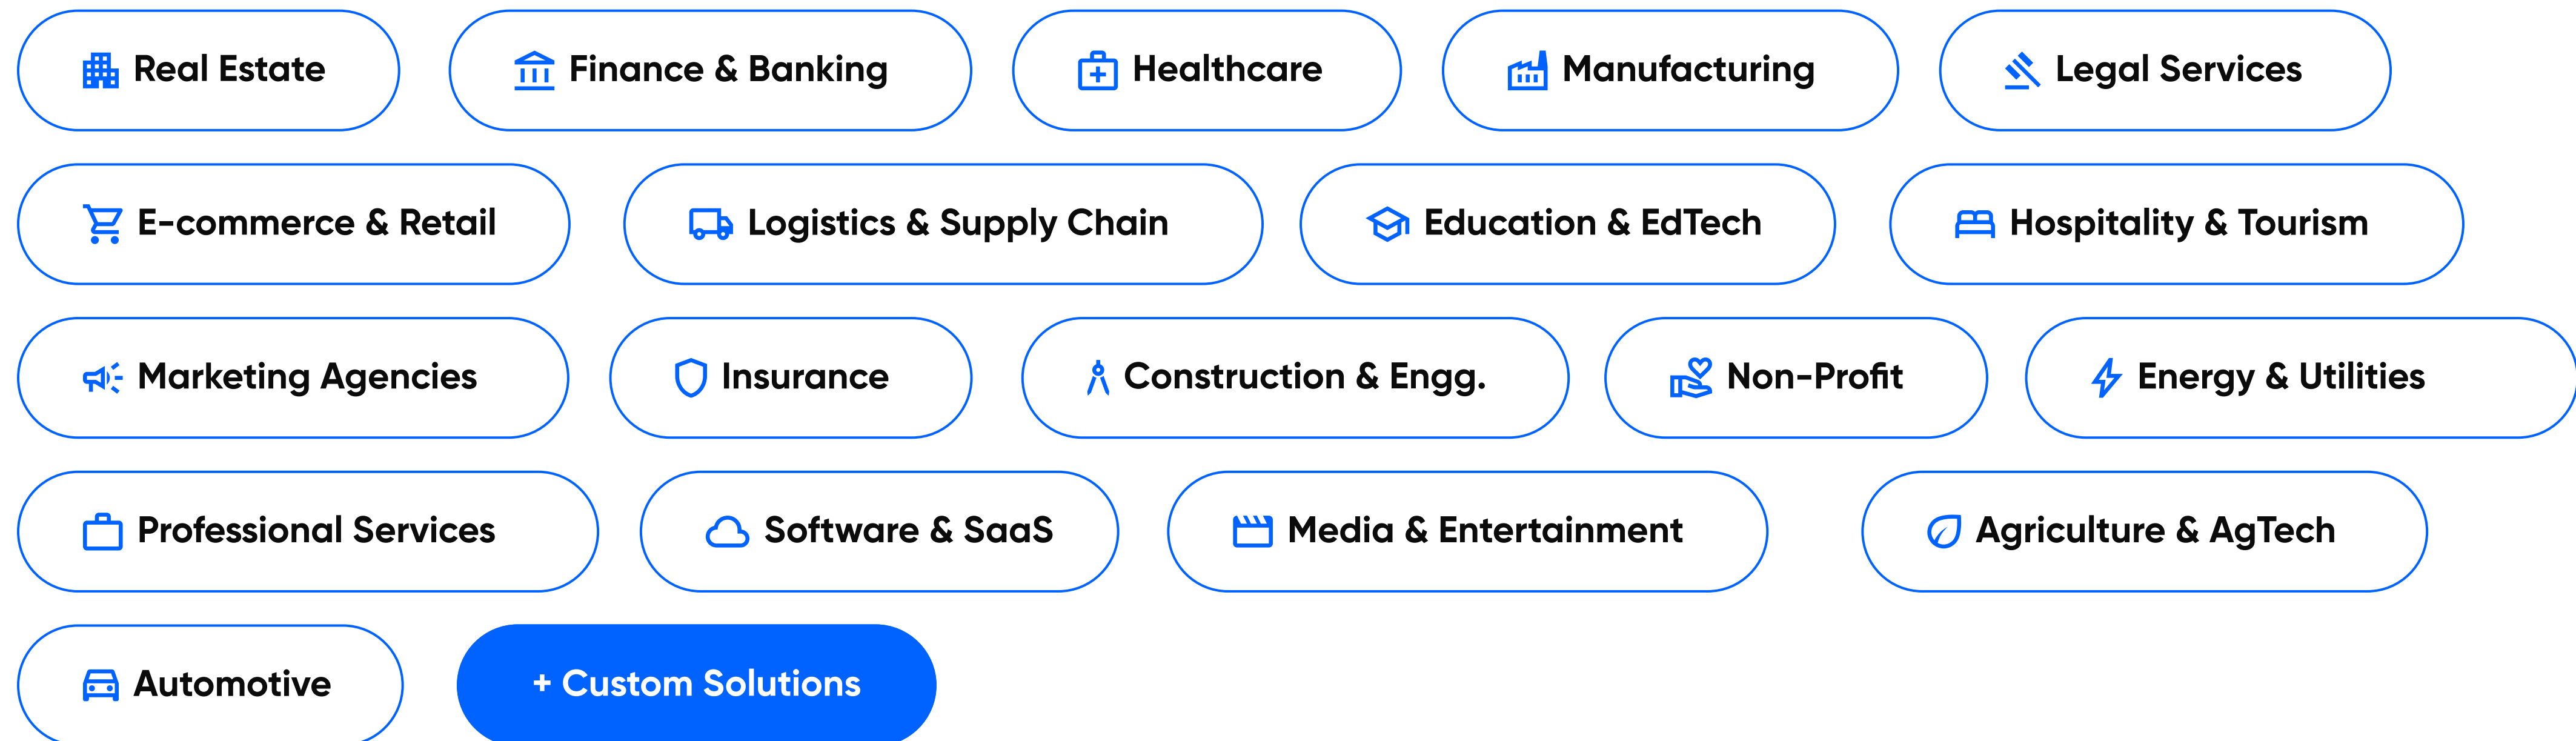

04

Achieve

Live systems in 4-6 weeks delivering real ROI from day one.

20+ Industries. One approach.

Every sector has unique bottlenecks. Our intelligent automations are primed to solve for them all.

Client testimonials

Mira AI has become central to how we showcase innovation. We're featuring it prominently across all our business channels and building entire conference exhibitions around what it can do.

Vijaya K

Dr.Reddy's 

Client testimonials

The systems Magentic built became the foundation of our entire value model. They're our one-stop shop for automation, and we're in this for the long haul.

Shawn B

Client testimonials

The curriculum Magentic built with American School of AI captured our workflows so precisely, you'd think they'd worked here for years. We immediately saw productivity gains that let us scale without aggressive hiring.

Priya M

 **Keystone Security**

Client testimonials

Honestly, I've forgotten how I used to do this manually. The agent they built handles it better than I ever did

David L

**LANDMAN
REALTORS**

Own the Future of **Work**

The companies winning today aren't just using AI, they're building their operations around it. **Let's architect yours.**
